OVERVIEW

The consolidated sales revenues of AB Linas Agro Group amounted to LTL 2.043 billion and were 53% more as compared to LTL 1.338 billion earned over the respective period last year. The Group's trading volume in tons reached 1.78 million and was 32% more as compared to previous year. Trade growth was favorably affected by growth of sales in all business segments, high grain harvest in the Baltic States also had great influence. Moreover, consolidation of UAB Dotnuvos Projektai increased Group's revenues by more than LTL 190 million. Only during the fourth quarter of the fiscal year consolidated revenues increased by 51% from LTL 255 million to LTL 386 million, and the gross profit increased by 51% from LTL 29 million to LTL 35 million.

All Groups' business segments were profitable. The Group's gross profit reached LTL 157 million and was up by 65% as compared to the respective period of 2011/2012 financial year (LTL 95 million). Gross profit growth was obtained by increase in trading volume and increased profitability in agricultural commodity trade, successful risk management and consolidation of a new business segment in the Group's activities – Machinery and Equipment. Group managed to increase gross profitability from 7.09% last year to 7.70% this year. The operating profit of the Group was LTL 103 million or 10% less, as compared to LTL 115 million in 2011/2012 financial year. The net profit amounted to LTL 88 million and was 7% less as compared to LTL 94 million earned during the respective period of financial year 2011/2012. If eliminating the income from the sales of the Ukrainian company PJ-SC UKRAGRO NPK, the Group's net profit was up almost 2 times from LTL 42 million to LTL 88 million.

Group's consolidated operating costs amounted to LTL 80 million and were 63% higher than during the respective period of the last year (LTL 49 million). Operating cost growth is mainly explained by acquisition and consolidation of the new companies within the Group.

GRAINS AND OILSEEDS

The largest business segment of the Group generated the record high sales revenues of LTL 991 million during financial year (LTL 534 million in 2011/2012 financial year) and the operating profit amounted to LTL 33 million (LTL 6 million in FY 2011/2012). The operating profit growth was obtained by significant increase in trade volume: over 1 million tons of grain and oilseeds were sold (compared to 592 thousand tons in FY 2011/2012).

FEEDSTUFFS

The revenues from feedstuffs sales reached LTL 627 million compared to LTL 361 million in 2011/2012 financial year. The operating profit totaled LTL 30 million (LTL 17 million in FY 2011/2012). Approximately 542 thousand tons of feedstuffs were sold, i.e. almost 46% more than during the respective period last year (371 thousand tons). Growing demand for feedstuffs on European market was the key driving factor for such growth.

AGRICULTURAL INPUTS

Revenues from agricultural inputs and services declined from LTL 415 million to LTL 257 million and operating profit from LTL 89 million to LTL 11 million. Please note that the decline was due to sale of shares of Ukrainian subsidiary PJ-SC UKRAGRO NPK, because, excluding profit gained from the company, the operating profit of previous year has been LTL 7 million. Fertilizer trade volume in litas in the Baltic region increased more than 46%, seed trading volume increased 4 times, to a large extent due to consolidation of UAB Dotnuvos Projektai.

FARMING

Due to good crop harvest and consolidation of Kėdainiai district Labūnavos ŽŪB into the Group the consolidated revenues of the farming segment grew from LTL 47 million to LTL 80 million. The operating profit amounted to LTL 27 million (LTL 8 million recorded in FY 2011/2012). The operating profit increase is mainly explained by a positive impact of evaluation of assets at market value of Kėdainiai district Labūnavos ŽŪB compared to its acquisition cost (positive effect of LTL 19 million). It is worth to be noted that evaluation of biological assets had a negative impact on segment's operating profit, by diminishing its results by almost LTL 8 million (mostly because of decrease in grain market prices on year to year basis).

MACHINERY AND EQUIPMENT

This is a new segment of the Group activity, which appeared this financial year, after the Group acquired 100% shares of UAB Dotnuvos Projektai. This segment includes wholesale and retail of new and used agricultural and forest machinery and spare parts, also designing and installation of grain cleaning, drying and storage facilities. Business is being run in three countries – Lithuania, Latvia and Estonia. The

results of UAB Dotnuvos Projektai for the first quarter are not consolidated because UAB Dotnuvos Projektai became a part of the Group on 1 October 2012 only.

Sales revenues from this Segment were LTL 153 million, operating profit LTL 16 million.

OTHER PRODUCTS AND SERVICES

This activity segment includes grain warehousing services, logistics services, trade in lignin biofuel and other categories of goods and services not attributable to other segments. Due to the high harvest in Lithuania and Latvia and increased own grain storage capacity of the Group sales revenue of this segment was up 81% and reached LTL 74 million as compared to LTL 41 million in FY 2011/2012. The operating profit of the segment was LTL 14 million (LTL 11 million in previous year).

FINANCIAL COSTS

Financial expenses over referenced period amounted to LTL 8.6 million and were 12% lower as compared to the respective period of the 2011/2012 financial year (LTL 9.8 million). Due to high harvest in Baltic countries Group's demand for working capital increased almost 2 times, although sufficient own capital and comparatively low interest rates on financial loans allowed the Group to control all over its financial expenses.

CASH FLOWS

Group's cash flow from operating activities before the changes in working capital increased to LTL 98 million as compared to LTL 61 million over the respective period of the previous year. Cash flow from operating activities after changes in working capital amounted to LTL 111 million (LTL 44 million over the respective period of 2011/2012 financial year). The growing sales of the Group decreased stocks (due to accelerated sales of grains stocks decreased by LTL 31 million). Group's cash and cash equivalents at the end of the reporting period amounted to LTL 34 million (LTL 55 million over the respective period of 2011/2012 financial year).
