AB Linas Agro Group together with its directly and indirectly controlled companies (hereinafter – subsidiaries) makes the Group, which was founded in 1991 and had 39 companies at the end of the reporting period, and operates in four countries – Lithuania, Latvia, Estonia and Denmark. As at 31 December, 2014 the total headcount of the Group amounted to 2,186 employees. The financial year of the Group begins on 1 July. The Company does not have any branches and representative offices.

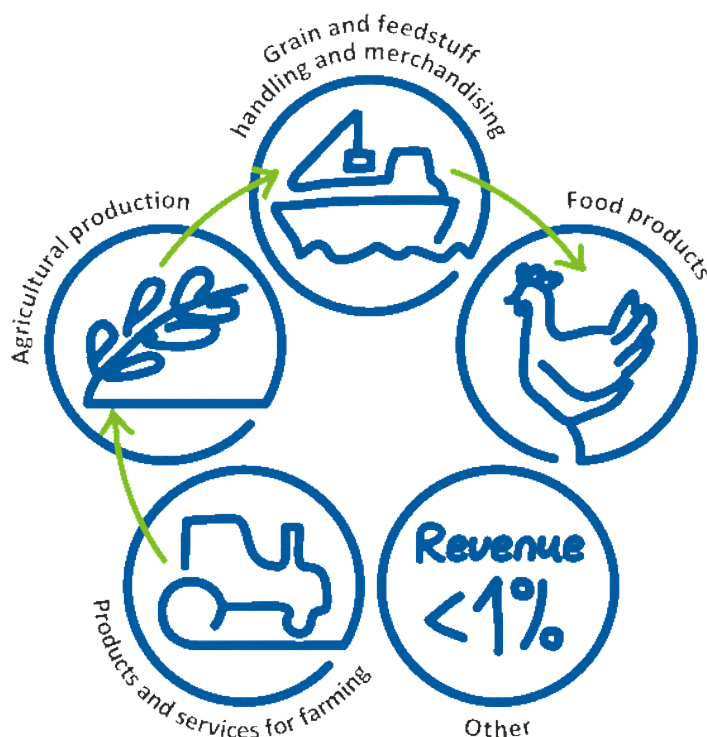

4. THE MAIN ACTIVITY

The subsidiaries controlled by the Company produce, handle and merchandise agricultural and food products, also provide products and services for farming. The Company performs only the management function and is not involved in any trading or production activities.

The Group is the leading exporter of grains and owns network of grain storage facilities. Also is one of the leaders in supplies of agricultural inputs (such as certified seeds, fertilizers and agricultural machinery) in Lithuania, *has seed* preparation plant. Also the Group is a major milk producer in Lithuania and poultry producer in Latvia.

The Group's activities are subdivided into five basic operating Segments: *Grain and Feedstuff Handling and Merchandising, Products and Services for Farming, Agricultural Production, Food products* and *Other*. Division into separate Segments is dictated by different types of products and character of related activities; however, activities of the Segments are often interconnected.

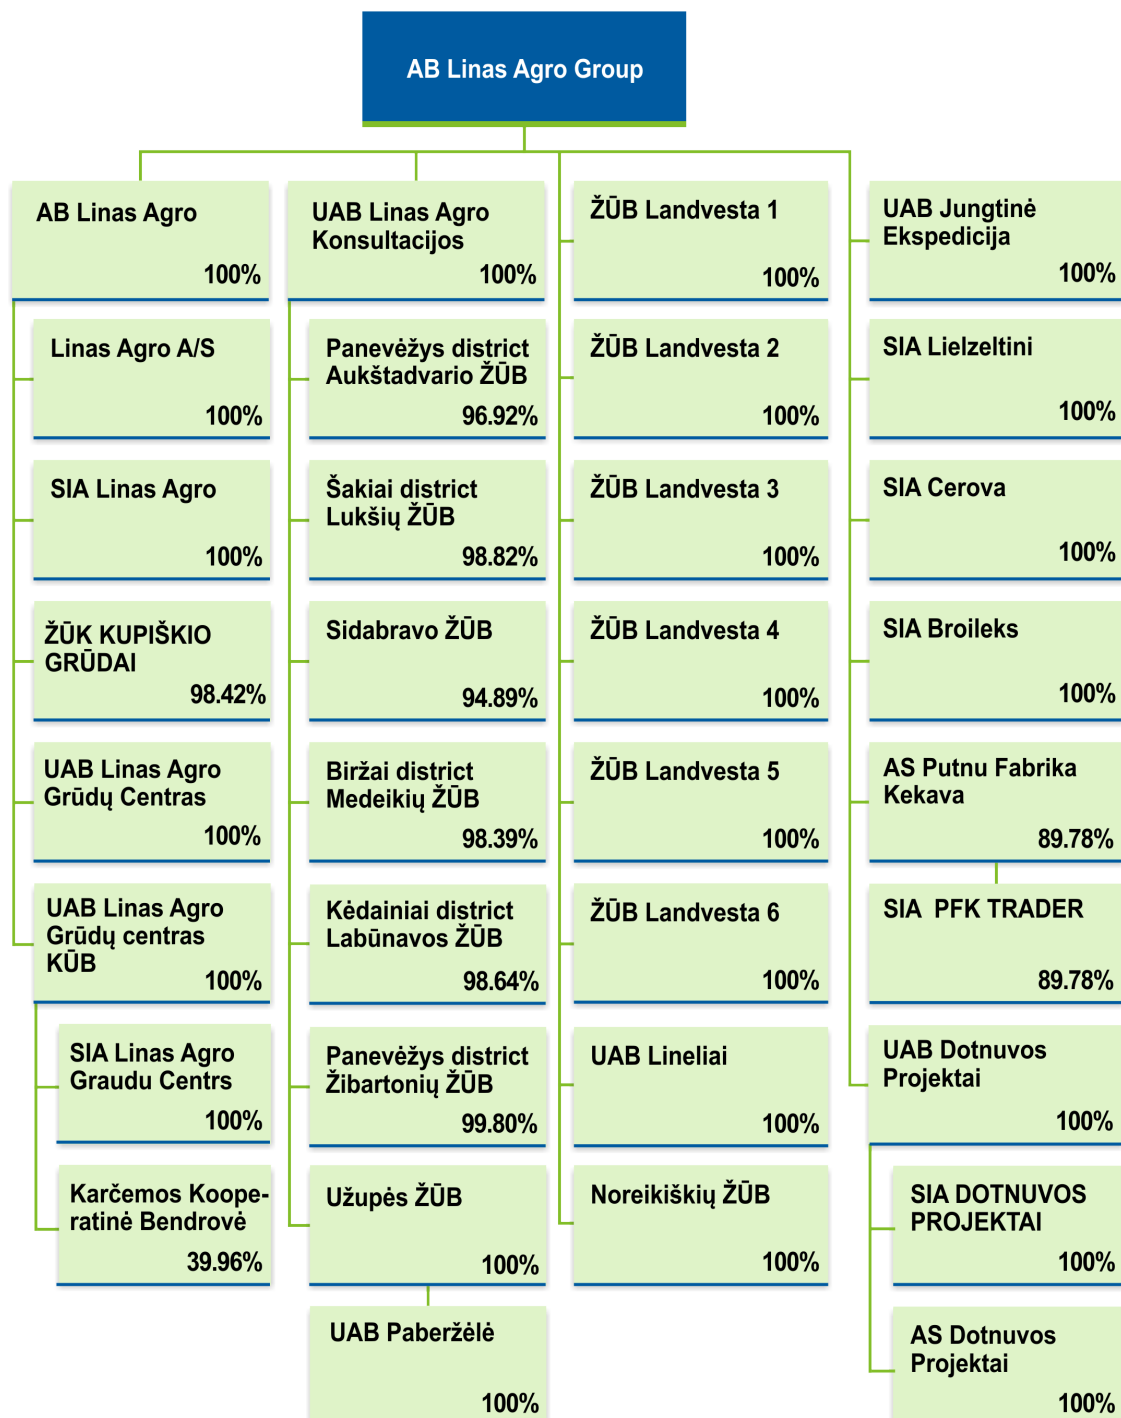

Food products – a new activity Segment that appeared in 2013/14 financial year after the Company acquired a group of Latvian poultry companies.

6. EMPLOYEES

As at 31 December 2014 the number of employees of the Group was 2,186 employees or 483 employees more than as at 31 December 2013 (1,703). This increase was conditioned by acquisition of Latvian companies (SIA Lielzeltini, SIA Broileks and SIA Cerova).

AB Linas Agro Group has no collective agreement.

7. ACTIVITY AND FINANCIAL RESULTS OF THE GROUP

Consolidated revenue of AB Linas Agro Group in the first half of 2014/15 financial year totaled LTL 1,072 million and grew by 7% as compared to previous year (LTL 1,002 million).

The Group's sales volume in tons reached 1,166 thousand tons of various grains, agricultural inputs and other products and was 24% more as compared to previous year (944 thousand tons).

Grain storage facilities owned by the Group processed 466 thousand tons of various grains or 20% more as compared to the respective period of 2013/14 financial year (387 thousand tons).

The Group's gross profit reached LTL 58 million and remained almost the same as compared to the respective period of the previous year (LTL 57 million). Consolidated EBITDA declined to LTL 30 million from LTL 50 million last year.

The Group's operating profit reached LTL 13 million or was 68% less as compared to the respective period of the previous year (LTL 41 million). Excluding one-off effects on Group's profit-loss statement of 2013/14 financial year, operating profit remained almost the same or LTL 12.9 million as compared to LTL 12.8 million a year ago.

Profit before taxes amounted to LTL 9 million (compared to LTL 38 million previous year). The net profit attributable to the Group reached LTL 6 million (LTL 28 million previous year).

2. OVERVIEW

As it was expected earlier, according to International Grain Council (IGC) data, the total world grains and oilseeds harvest in 2014 is considered to be one of the highest in the last three years. Accordingly it pushed down world prices for grain commodities if compared to 2013. It is predicted that wheat harvest in 2014/15 season would reach 717 million tons (713 million tons in 2013/14 season), maize – 992 million tons (991 million tons in 2013/14 season) and soybeans – 312 million tons (308 million tons in 2013/14 season). It is forecasted that total world grains production would reach 2,002 million tons and would be slightly higher if compared to 2013/14 season (2,000 million tons). Also total grains and oilseeds ending stocks are expected to increase from 402 million tons to 432 million tons.

Crop yields in all three Baltic countries showed a record high in 2014: harvest in Lithuania was 16.6% higher than in 2013 and amounted to 5.1 million tons, in Latvia it reached 2.227 million tons and was 14.3% more, in Estonia it reached 1.222 million tons or was 25 % up compared to 2013.

Good harvest and big inventories affected the global prices for grains and oilseeds which declined as compared to 2013. For instance, wheat price in MATIF Exchange over period July-December fluctuated between 154-199 euros per ton compared to 184-208 euros per ton a year before, the price for rapeseed was 317-352 euros per ton compared to 355-390 euros per ton in previous year. Nevertheless, grain prices recovered over the second quarter (October-December) if compared to first one (approx. 20-25% for wheat and 10% for rapeseed). Due to this, farmers have been actively closing their open sale contracts (contracts for sales of 152 thousand tons of grain were closed over referenced period) and the Group was active in purchases.

Consolidated revenues of AB Linas Agro Group over first six months of this financial year amounted to LTL 1,072 million or increased by 7% if compared to previous year (LTL 1,002 million). The main reasons that had a positive impact for the growth in revenues was increased sales in grains and feedstuff (revenues of the largest business Segment grew from LTL 717 million to LTL 771 million) and consolidation of the new business Segment *Food Products* within the Group. The revenues from food products sales amounted to LTL 105 million (LTL 21 million in previous financial year as only AS Putnu Fabrika Kekava's revenues has been consolidated within the Group at that time).

Decreased purchase prices for grain and milk had a negative impact on profitability of farming companies controlled by the Group. Moreover, European Union structural funds subsidy program for agricultural machinery upgrade has not been confirmed at governmental level, and this fact had a negative impact on sales of agricultural machinery in all Baltic countries. These were major reasons what negatively affected Group's profitability so far. AB Linas Agro Group's gross profit remained almost the same and amounted to LTL 57.8 million as compared to LTL 57.3 million a year before. Group's EBITDA dropped from LTL 50 million to LTL 30 million as compared to 2013/14 financial year.

It should be noted that LTL 9.5 million profit from acquisition of Panevėžys district Žibartoniai agricultural company and LTL 4.4 million from acquisition of AS Putnu Fabrika Kekava was recorded in 2013/14 financial year's operating profit. Also LTL 13.8 million has been recorded as a profit from write-off of credit liabilities. Excluding the impact of these factors on the operating results of the Group, operating profit and net profit of AB Linas Agro Group remained unchanged and amounted to LTL 13 million and to LTL 7 million accordingly.

REVENUE, LTL MILLION

EBITDA AND GROSS PROFIT, LTL MILLION

3. FINANCIAL COSTS

Financial expenses over referenced period amounted to LTL 4.6 million and were 25% more than that in 2013/14 financial year (LTL 3.7 million). The main reason affecting increase in such expenditures was increase in financial debts from LTL 336 million to LTL 423 million. Long-term debt mainly increased due to consolidation of poultry companies and long-term loan received for financing of acquisition of poultry business.

4. CASH FLOWS

Group's cash flow from operating activities before the changes in working capital increased to LTL 36 million as compared to LTL 11 million of the corresponding period of the previous year. Cash flow from operating activities after changes in working capital was negative and amounted to LTL 47 million (negative LTL 217 million over the respective period of 2013/14 financial year). This is usual business practice as part of stocks would be sold in the second half of this year. Group's cash and cash equivalents at the end of the reporting period amounted to LTL 62 million (LTL 20 million in 2013/14 financial year).

5. PERFORMANCE RESULTS OF SEGMENTS

Other	168	(481)	(616)	1,734

GRAIN AND FEEDSTUFF HANDLING AND MERCHANDISING

Being the largest operating Segment, this one includes the sale of grain, oilseeds and feedstuffs, as well as grain storage and logistics services. The Group has been operating in this field since 1991. This activity generates most of the Group's revenue.

Despite decline in world grain and oilseed prices sales revenue of the largest activity Segment of the Group grew up from LTL 717 million to LTL 771 million and operating profit amounted to LTL 9 million (LTL 8 million in 2013/14 financial year). Revenue growth was driven by growth of grain sales from 528 thousand to 706 thousand tons. Growth in feedstuffs also has been recorded where has been traded 238 thousand tons as compared to 201 thousand in 2013/14 financial year.

Grain storage facilities owned by the Group collected and processed 466 thousand tons of various grains or 20% more as compared to the respective period of the previous year.

The Group continuously expands its storing capacities. The installation of new grain elevator has begun at Jungenai village, Kalvarija district instead of grain receiving station. Almost 554 thousand litas was invested into modernization of the other grain elevators. F. i., the third grain intake pit was installed in Joniškis grain elevator to increase the speed of customer service. The Group is ongoing building a new grain elevator with storage capacity of 8,000 tons at Jekabpils district, Latvia which is expected to start operations in the beginning of 2015/16 financial year. By this way, the Group expects to further strengthen its market share in the Latvian grain market, increase the volume of trade in fertilizers, plant protection products, seeds and other products for farming.

PRODUCTS AND SERVICES FOR FARMING

This business Segment includes the sale of seeds, plant protection products, fertilizers, agricultural and forestry machinery, grain storage and other equipment.

Supply of certified seeds, fertilizers, plant protection products to farmers is a long term activity of the Group. The grounds of this activity trace back to 1993, when the Group began entering into future production purchase contracts with farmers and crediting agricultural activities in exchange for the grown products. A great share of certified seeds is prepared at UAB Dotnuvos Projektai seed processing factory.

Supply of agricultural machinery is business activity, developed in three countries – Lithuania, Latvia and Estonia. This activity includes wholesale and retail trade of new and used agricultural and forest machinery and spare parts, as well as design and installation of grain cleaning, drying and storage facilities.

Sale revenue of this business Segment amounted to LTL 206 million or were 18% less as compared with the corresponding period last year (LTL 252 million).

Agricultural machinery market suffered a decline in the Baltic countries last year. For instance, agricultural machinery registration data shows 40 percent decline in number of newly registered tractors in Lithuania last year. An even greater drop in the tractor market in 2014 was observed in Latvia - over 60, in Estonia the market has contracted by about 30%. There were several reasons for shrinkage of the market: the main one was delay in the European Union support to farmers for acquisition of agricultural machinery. The other reasons - the low world market prices for grain till the end of the year and the decreased milk purchase price across the Baltic region related to Russian embargo.

Despite the general market trends, the company UAB Dotnuvos Projektai has managed to withstand the sharp decline in agricultural machinery trading (the company sold 213 units of new machinery compared to 240 units in previous year). The company sold 46 tractors, almost the same quantity as previous year (45). The sales of harvesters were in line with the market trend and has fallen almost twice (that market segment dropped by 53% in Lithuania).

The more severe drop in sales of agricultural machinery was recorded in Latvia and Estonia, where jointly was sold only 82 units of new agricultural machinery or 2.3 times less than year ago (188 units).

Sales of used agricultural machinery grew by 41% and spare parts – 11% if compared to previous year. However, these activities represent quite a small part of the Group's revenue.

Group's sales of agricultural machinery and equipment for grain elevators dropped from LTL 99 million to LTL 54 million, where consolidated sales of UAB Dotnuvos Projektai declined from LTL 108 million to LTL 74 million.

Due to decreased prices of grains, sales of fertilizers declined from LTL 117 million to LTL 113 million, while sales of plant protection products and seeds increased from LTL 36 million to LTL 49 million.

Taking into consideration aforementioned reasons Segment's operating profit dropped from LTL 8.5 million to LTL 4.6 million. Although Segment's operating profit in the second quarter of this financial year reached LTL 2.6 million and was 35% more if compared to first quarter.

At the end of accounting period, Latvian and Estonian governments has confirmed EU support program for acquisition of agricultural machinery and equipment. The Group expects that first such support calls will take place in late spring of 2015. Therefore the Group expects the sales volumes in these product groups to recover by the end of the fourth quarter of financial year. Lithuania still is lagging behind and most likely sales supported with EU funding will not take place this financial year.

The Group invests into Segment's infrastructure and therefore a new liquid fertilizer's storage facility of 2,500 cubic meter capacity has been constructed in Kedainiai, Lithuania; a newly reconstructed agricultural machinery service centers of UAB Dotnuvos Projektai were opened in Vilkaviskis and Joniskis (Lithuania), also brand new center opened in Valmiera, Latvia and one more service center is being constructed in Pasvalys, Lithuania. In order to meet the market demand and offer the market the bigger quantities of better quality legume seed, the Group started modernization and expansion of seed processing plant in Dotnuva, Lithuania by the end of the reporting period and is going to invest up to almost LTL 2.5 million into it.

AGRICULTURAL PRODUCTION

This business Segment covers cultivation of cereals, oilseed rape, sugar beet and other crops, production of milk and beef cattle farming. The Group owns seven agricultural companies situated on fertile land across Lithuania – Panevėžys District Aukštadvario ŽŪB, Panevėžys District Žibartonių ŽŪB, Kėdainiai District Labūnavos ŽŪB, Šakiai District Lukšių ŽŪB, Biržai District Medeikių ŽŪB, Užupės ŽŪB and Sidabravo ŽŪB.

Over the respective period Group controlled farms operated 17,090 ha of land. Farms harvested a record amount of grains – 78.9 thousand tons or 9% more as compared to previous year. The harvest of wheat amounted to 42.6 thousand tons, malting barley – 17.7 thousand tons, rapeseed – 10.4 thousand tons. 11,742 tons of sugar beet was sold or 10% more than a year before.

5,781 ha of winter wheat and 1,715 hectares of winter rapeseed were sown in autumn, accordingly 4% and 14% less than in 2013.

Group controlled farms own 3,075 dairy cows and have sold 14,599 tons of raw milk over the first six months of this financial year or 22% more as compared with previous year (12 015 tons). Sales of cattle amounted to 614 tons or the same as previous year.

Due to Russian sanctions on imports of dairy products and decline in world prices for raw milk the purchase price of raw milk went down by 35% if compared to previous year and was 842 litas per ton (LTL 1,140 per ton in 2013/14). The raw milk purchase price of the Group-owned agricultural companies decreased 8% during the second quarter of the financial year as compared to the previous quarter and amounted to 806 litas per ton.

Due to decline in grain and milk purchase prices revenue of the Segment dropped from LTL 52 million to LTL 48 million. The segment recorded LTL 5 million operating loss as compared to LTL 7 million profit in 2013/14 year. If we would eliminate profit of LTL 8 million from farm acquisition in 2013/14, Segment's operating loss would have amounted to LTL 1 million in the respective period of FY 2013/14.

Over referenced period Group controlled farm invested over LTL 2.9 million to modernize agricultural machinery, equipment and premises.

FOOD PRODUCTS

This business Segment includes a whole cycle poultry business, including incubation of hatching eggs, broiler breeding, production of poultry and its products, feed manufacturing for self-supply and retail sale of chicken meat and its products. The Group has acquired shares of Latvian poultry company AS Putnu Fabrika Kekava in October, 2013 and the companies SIA Broileks, SIA Cerova and SIA Lielzeltini in February, 2014.

The company SIA Putnu Fabrika Kekava is included in the Group as from November 2013, and the other companies as from February 2014, respectively, their results are consolidated in the Group's results since then. The operating results of AS Putnu Fabrika Kekava only has been accounted into six months results of 2013/14 financial year, therefore this report does not contain comparison with previous year results, although income and EBITDA of poultry business showed slight increase.

The poultry companies sold almost 19 thousand tons of poultry and various poultry products over the referenced period. Due to favorable price level for feedstuffs and increased efficiency of the companies, the operating results of this business Segment was the best if compared to other ones. Sale revenue of the Segment amounted to LTL 105 million and operating profit stood at LTL 9 million.

The Group invested LTL 5 million to modernize rearing of poultry, poultry processing equipment and other technical upgrade.

Poultry processing affiliate of SIA Lielzeltini has received an international food safety management system certification ISO 22000:2006, which confirm the consumer-friendliness of the products.

OTHER

This business Segment includes small activities, not attributable to other Segments, f. i., services of elevator's to the third parties, sales of minor assets, etc.

The sales of the Segment totalled to LTL 2.93 million (LTL 0.15 million in 2013/14 financial year) and operating profit amounted to 168 thousand litas as compared to 481 thousand litas loss in previous year.

6. INVESTMENTS

The Group spent 0.14 million litas on further increase of share packages in the companies controlled by the Group).

Subsidiaries of the Group invested almost LTL 18.6 million over the referenced period. The breakdown of major investments is presented in the table.

Type of investments	Amount invested, LTL thousand
Grain storage facilities and equipment, poultry machinery and equipment, warehouses and other	9,076
Investments into agricultural equipment, machinery, buildings and agricultural land	9,187
Other investments	364

8. THE PUBLICLY DISCLOSED INFORMATION AND OTHER EVENTS OF THE REPORTING PERIOD

THE PUBLICLY DISCLOSED INFORMATION

During the reporting period ended 31 December, 2014, the Company publicly disclosed and distributed via Nasdaq Vilnius GlobeNewswire system and in Company's website the following information:

OTHER EVENTS DURING THE REPORTING PERIOD

04/12/2014	Share capital of ŽŪB Landvesta 2 was increased from LTL 1,182,000 to LTL 1,207,000 to LTL 1,365,000.
20/11/2014	The authorized capital of SIA Linas Agro Graudu Centrs was increased from EUR 2,828 to EUR 1,656,828.
Nov-Dec, 2014	The Company additionally acquired 1,541 worth of shares of AS Putnu Fabrika Kekava.
26/11/2014	After the completion of the reorganization of UAB Fossio the company was deregistered, and its rights and obligations were passed to UAB Linas Agro Grūdų Centras. After merging UAB Fossio, the authorized capital of UAB Linas Agro Grūdų Centras increased from 130,000 to 590,600 litas.
27/10/2014	AS Putnu Fabrika Kekava acquired the company SIA Erfolg Group.
30/09/2014	SIA Lielzeltini Council was formed and representatives of the Group from Lithuania Darius Zubas, Andrius Pranckevičius and Gintaras Maželis were elected the members of it. They all are the members of the Council of AS Putnu Fabrika Kekava as well.
22/09/2014	UAB Linas Agro Konsultacijos and AB Linas Agro sold shares of farming company Panevėžys District Ėriškių ŽŪB.
18/09/2014	AB Linas Agro, the sole shareholder of companies UAB Fossio ir UAB Linas Agro Grūdų Centras, made decision decided to reorganize UAB Fossio and merge it to UAB Linas Agro Grūdų Centras.
Aug-Nov, 2014	Share capital of Noreikiškių ŽŪB increased from LTL 1,243,000 to LTL 1,365,000.

Jul-Nov, 2014	UAB Linas Agro Konsultacijos additionally acquired 19,272.40 worth of shares of Sidabravo ŽŪB.
26/08/2014	Share capital of UAB Lineliai increased from LTL 1,610,000 to LTL 1,790,000.
28/07/2014	The credit line in the amount of 30 million euros has been granted to SIA Linas Agro by SEB and DNB banks in Latvia.
09/07/2014	AB SEB bank has increased its credit line to AB Linas Agro issued a year before by LTL 28 million to LTL 228 million.
01/07/2014	Share capital of AS Putnu Fabrika Kekava was increased from LVL 8,973,944 to LVL 13,316,240, the number of shares owned by the Group after share capital increase is 89.46 pct. of share capital.

SUBSEQUENT EVENTS

Jan-Feb, 2015	The Company additionally acquired 8,516 worth of shares of AS Putnu Fabrika Kekava.
04/02/2015	SIA Linas Agro Council was formed and representatives of the Group from Lithuania – Darius Zubas, Vytautas Šidlauskas and Dainius Pilkauskas– were elected the members of it.
09/01/2015	The new version of the Articles of Association of UAB Dotnuvos Projektai entered into force and the newly formed Board of the company with the members Darius Zubas, Andrius Pranckevičius and Tomas Tumėnas started operating.
08/01/2015	There was made a decision to liquidate the company UAB Žemės Ūkio investicijos.

9. SCOPE OF RISK AND MANAGEMENT THEREOF

MARKET RISK

Market risk shall be understood as a risk to generate profit lower than planned if the tone of market prices is unfavorable. This may happen if market price fell below the intervention prices (minimal purchase prices for grains established by state authorities) as it would prevent the Company from receiving surplus profit. In a market situation when grain purchase prices fall due to certain reasons, intervention prices are used as a leverage to uphold a certain price level and thus to ensure guaranteed income to farmers. When intervention prices are higher than or identical to market prices, the Group sells the purchased grains to the agency and thus earns certain income which under regular market conditions would be lower than market prices. Starting from 2005, intervention prices are set by the EU and are calculated for two years in advance. The mechanism has not been applied so far; however, if intervention prices were applied, the Group would have been deprived of surplus profit.

In H1 of FY 2014/15 this risk did not manifest itself as regards the Company and the Group.

RISK RELATED TO ACTIVITIES OF SUBSIDIARIES

Subsidiary companies of the Group are engaged in the trade of agricultural raw materials, agricultural production, rearing of poultry and poultry production, storage of agricultural products and other activities. Poultry enterprises need to face the operational risk related to this sector including the cessation of the production as well as disease, environmental and other risks. Even though most of the subsidiaries are profitable, adverse developments in the markets, in which the parent company and its subsidiaries operate, may affect their yields. Managers for corresponding businesses within the Group follow closely and analyze the activity of the subsidiary companies and their key transactions, provide operational budgets of the companies under the authority of the Group's Board as well as monitor the implementation and key developments in these companies' budgets.

In H1 of FY 2014/15 this risk did not manifest itself as regards the Company and the Group.

POLITICAL RISK

Agriculture is a strictly regulated and supervised sector of economy in the European Union. Although this regulation and control are mostly aimed at ensuring sufficient income for entities engaged in agricultural activities, political changes may affect the situation in the market where the Group operates. For example, reduction of subsidies to agriculture may affect the activities of agricultural companies controlled by the Group.

In H1 of FY 2014/15 this risk did not manifest itself as regards the Company and the Group.

SOCIAL RISK

The experience and knowledge of the management determine the ability of the Group to retain its competitive status and implement its growth strategy. However, there are no guarantees that all key employees of the Group will stay with the Group in the future. Loss of such employees or the Group's failure to recruit new employees possessing appropriate knowledge may have a significant adverse impact on the business outlook and financial position of the Group. Non-competition agreements are signed with some executives.

In H1 of FY 2014/15 this risk did not manifest itself as regards the Company and the Group.

COUNTERPARTY RISK

The Group enters forward contracts with more than 1,300 clients who commit the delivery of production under terms and conditions of the contract. As the prices of products increase, the risk of breach of forward contracts and non-delivery of production by counterparties emerges. The bigger the difference between the contract price and the current market price on the day of delivery, the higher is the risk.

In 2014/15 financial year, the Group according its risk management policy has been using risk management mitigating tools for forward purchases. No loss has been recorded, as the situation in the market was positive for such forward purchases. Additionally the Group has revised and stringent the terms of its purchase agreements, continuously monitored, controlled and analyzed probable scenarios for losses

(for example, setting limits on forward contracts, evaluation and assessment of client's credit rating, capacity of cultivated land etc.).

In order to manage the risk related to certain products, the Group concludes forward contracts on commodity exchange NYSE Euronext Paris SA. The Group trades in futures to control the price risk arising from purchasing and selling rapeseed and wheat. The Group has approved an internal trade risk management system and established the credit risk management committee that analyses trade transactions entered into by the Company as well as their amounts and limits. Some of the buyers (buyers' solvency risk) are insured with international insurance companies.

In H1 of FY 2014/15 this risk did not manifest itself as regards the Company and the Group.

10. AUTHORIZED CAPITAL AND SHARES OF THE COMPANY

There were no changes in authorized capital since 17 of February 2010.

On 31 December, 2014 the authorized capital of the Company amounts to LTL 158,940,398 (one hundred and fifty-eight million, nine hundred and forty thousand, three hundred and ninety-eight litas). The authorized capital of the Company is divided into 158,940,398 ordinary registered non-certificated shares. The nominal value of one share is LTL 1.00 (one litas). ISIN code of the shares is LT0000128092.

Type of shares	Number of shares	Nominal value (LTL)	Total nominal value (LTL)	Portion in the authorized capital (%)
Ordinary registered shares	158,940,398	1	158,940,398	100
Total	158,940,398	–	158,940,398	100

All the shares of the Company are fully paid and they are not subject to any restrictions of the transfer of securities. All shares issued by the Company grant equal rights to the Company's shareholders. The Company has not issued any shares of a class other than the aforementioned ordinary shares. Each ordinary share of the Company shall grant one vote at the General Meeting of Shareholders (except 790,972 ordinary registered shares acquired by the Company that do not give the right to vote). Neither limitations of the rights granted by the Company's shares nor special control rights for shareholders are provided for in the Company's Articles of Association.

THE COMPANY'S OWN SHARES

At the end of the reporting period, the Company holds 788,972 units of Company's shares with a nominal value of LTL 788,972, which do not grant the right to vote in the General Meeting of Shareholders.

The subsidiaries of the Company have not acquired any shares of the Company.

Annual General Meeting of AB Linas Agro Group, held on 24 of October 2013 assigned Board of the Company to purchase up to 1,589,403 ordinary registered shares of the Company, i.e. up to 1% of all Company shares, in 18 months period with the purpose to maintain and increase the price of the Company's shares.
